PROFESSIONAL EXPERIENCE

TRINITY WORKFORCE – AXA PHILIPPINES | Functional Test Analyst / QA Analyst

November 2025 – July 2026

- Perform functional testing of business applications in collaboration with Business Analysts and Developers.
- Review business requirements specifications and test cases to validate coverage, expected results, and business rules.
- Execute test cases, document and track defects, perform retesting, and support regression activities.
- Participate in daily stand-ups and defect triage while coordinating testing activities with the delivery team.
- Monitor testing plans and provide clear updates on execution status, issues, and blockers.

ACCENTURE | Software QA Analyst

October 2021 – June 2024

- Performed manual testing for Microsoft Dynamics 365 CRM and Power Platform solutions, including functional, regression, API, and system integration testing.
- Designed, reviewed, and executed test cases and scenarios based on business and functional requirements.
- Logged, tracked, retested, and supported triage of defects, providing clear evidence and reproduction details to development teams.
- Reviewed requirements and technical documentation to identify gaps and improve test coverage.
- Collaborated with Developers, Business Analysts, Product Owners, and end users to validate requirements and resolve issues.
- Created supporting documentation including user manuals and troubleshooting guides and participated in Agile ceremonies.

MTI WATER TECHNOLOGIES, INC. | IT / CRM Support

January 2021 – June 2021

- Implemented and configured business applications using Zoho One, including CRM, Bookkeeping, Projects, SalesIQ, and Website modules.
- Conducted user training and created user manuals and functional specifications.

- Provided application and IT troubleshooting support to end users.

CONCENTRIX | IT Staff (Contractual)

September 2020 – December 2020

- Provided IT support, hardware setup, troubleshooting, and fixed-asset inventory documentation.

NTT DATA PHILIPPINES | Functional Consultant

July 2016 – May 2020

- Gathered and analyzed business requirements for Microsoft Dynamics NAV and Incadea DMS projects.
- Created functional specifications, user manuals, change requests, and other business documentation.
- Performed QA testing on system changes before client presentations and supported user acceptance activities.
- Conducted user training and provided pre- and post-go-live support.
- Worked with project teams and clients across automotive, warehousing, pharmaceutical, and shipping industries.
